Clean Diesel Technologies, Inc. to Discuss First Quarter 2009 Results and Host Investor Conference Call At Annual Meeting

BRIDGEPORT, Conn., May 5, 2009 (GlobeNewswire via COMTEX News Network) -- Clean Diesel Technologies, Inc. (Nasdaq:CDTI), the cleantech emissions reduction company focused on sustainability and energy efficiency, will issue a press release discussing the results of the first quarter of 2009 on May 12; on Wednesday, May 13, it will host an investor conference call at 10:30 AM Eastern Daylight Time (EDT). The Conference call will take place from the Annual Meeting of Stockholders at The Bridgeport Holiday Inn, 1070 Main Street, Bridgeport, CT., U.S.A. During the call, Michael Asmussen, CEO and President, and Ms. Ann Ruple, CFO and Vice President, will review results for the year ended 2008 and the first quarter of this year which ended on March 31, 2009.

To participate in the conference call, in the U.S. please call 877-718-5111; internationally, use 719-325-4754. Please call five minutes before 10:30 AM (EDT):

You also can attend the conference call via the web at: <http://investor.cdti.com/events.cfm>. The teleconference will be archived at that location for future reference.

About Clean Diesel Technologies

Clean Diesel Technologies (Nasdaq:CDTI) is a cleantech company providing sustainable solutions to reduce emissions, increase energy efficiency and lower the carbon intensity of on- and off-road engine applications. Clean Diesel's patented technologies and products allow manufacturers and operators to comply with increasingly strict regulatory emissions and air quality standards, while also improving fuel economy and power. The Company's solutions, which are in commercial use worldwide, significantly reduce emissions formed by the combustion of fossil fuels and biofuels, including particulate matter (PM), nitrogen oxides (NOx), carbon monoxide and hydrocarbons. Clean Diesel solutions also reduce carbon dioxide (CO2) emissions, a key greenhouse gas associated with global climate change.

Clean Diesel develops and manages intellectual property from original concept to full-scale commercial deployment. Its offerings include ARIS(r) Selective Catalytic Reduction (SCR); the patented combination of SCR and Exhaust Gas Recirculation (EGR); hydrocarbon injection for emissions control applications; Platinum Plus(r) Fuel-Borne Catalyst (FBC); the Purifier(tm) family of particulate filter systems; and its Wire Mesh Filter particulate filter technologies. The Company was founded in 1995 and is headquartered in Bridgeport, Connecticut. A wholly owned subsidiary, Clean Diesel International, LLC, is based in London, England.
