

CDTi Extends Rights Offering Through July 20

July 13, 2018

OXNARD, Calif., July 13, 2018 (GLOBE NEWSWIRE) -- CDTi Advanced Materials, Inc. (Nasdaq:CDTI) ("CDTi" or "the Company"), a leader in advanced emission control technology, today announced it has extended until July 20, 2018, its previously disclosed rights offering pursuant to which it plans to raise approximately \$3,424,500 through the distribution of subscription rights and the exercise thereof (the "Rights Offering").

CDTi has chosen to extend the offering period to give stockholders, particularly those holding shares in street name who may have only recently received applicable materials, additional time to participate in the Rights Offering should they desire to do so. The company directs stockholders holding shares in street name who are interested in participating in the Rights Offering but who have not received materials to contact their broker(s).

Rights Offering Terms

Under the Rights Offering, the Company distributed non-transferable subscription rights to purchase one share of Common Stock for each share of Common Stock outstanding, at a subscription price per share of \$0.50, to its stockholders of record as of June 28, 2018, as more fully described in the prospectus supplement relating to the Rights Offering filed with the Securities and Exchange Commission on June 28, 2018.

The subscription rights are exercisable for up to an aggregate of 6,849,000 shares, with aggregate participation to be allocated among holders on a pro rata basis if in excess of that threshold. The subscription rights are non-transferable and may be exercised only during the extended subscription period of June 29, 2018, through 5:00 PM EDT on July 20, 2018.

This press release is not intended to and does not constitute an offer to sell or the solicitation of an offer to subscribe for or buy or an invitation to purchase or subscribe for any securities in any jurisdiction, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in contravention of applicable law. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

About CDTi Advanced Materials

CDTi develops advanced materials technology for the emissions control market. CDTi's proprietary technologies provide high-value sustainable solutions to reduce hazardous emissions, increase energy efficiency and lower the carbon intensity of on- and off-road combustion engine systems. With a continuing focus on innovation-driven commercialization and global expansion, CDTi's breakthrough Powder-to-Coat (P2C™) technology exploits the Company's high-performance, advanced low-platinum group metal (PGM) emission reduction catalysts. Key technology platforms include Synergized PGM (SPGM™) and Spinel™. For more information, please visit www.cdti.com.

Forward-Looking Statements

This press release contains forward-looking statements regarding the distribution of rights to purchase shares of CDTi's common stock. These forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially, including the extent of participation in the Rights Offering, risks associated with the cash requirements of our business and other risks detailed from time to time in our filings with the Securities and Exchange Commission, and represent our views only as of the date they are made and should not be relied upon as representing our views as of any subsequent date. We do not assume any obligation to update any forward-looking statements.
