

**FOR IMMEDIATE RELEASE**

## **Clean Diesel Technologies to Begin Trading on The NASDAQ Capital Market Effective October 3, 2007 under Symbol "CDTI"**

**Stamford, CT – October 1, 2007** – Clean Diesel Technologies, Inc. (EBB: CLDS; AIM: CDT/CDTS; XETRA: CDI), a global company providing innovative technologies and solutions that reduce emissions, conserve fuel and improve engine performance, today announced it has received approval from The NASDAQ Listings Qualifications Department to begin trading on The NASDAQ Capital Market.

Effective October 3, 2007, the Company's common stock will begin trading on the more prominent NASDAQ Capital Market. Prior to that, it had been traded in the U.S. on the over-the-counter bulletin board (OTCBB). The Company's common stock will continue to trade on the Alternative Investment Market (AIM) of the London Stock Exchange and in Germany on various regional exchanges and the national electronic exchange (Xetra).

Effective with the start of trading on The NASDAQ Capital Market on October 3, 2007, the Company's trading symbol will revert to CDTI from CLDS.

Dr. Bernhard Steiner, President and Chief Executive Officer of Clean Diesel Technologies, said, "We are pleased to have received approval for listing on The NASDAQ Capital Market, where our stock will have greater visibility with the investment community and will be accessible to many more sophisticated clean tech, institutional and retail investors. We believe that the transition will enhance trading liquidity in our shares and position Clean Diesel more appropriately and visibly among other leading clean technology companies around the world."

### **About Clean Diesel Technologies**

Clean Diesel Technologies, Inc., together with its wholly-owned subsidiary, Clean Diesel International, LLC, is a clean energy and environmental technology company that provides innovative solutions to reduce harmful engine emissions and conserve energy. Clean Diesel Technologies' patented technologies, products and solutions enable cost-effective reduction of harmful emissions from internal combustion engines while also improving fuel economy and power. Products include Platinum Plus<sup>®</sup> fuel-borne catalysts, the Platinum Plus Purifier Systems, the ARIS<sup>®</sup> urea injection systems for selective catalytic reduction of NO<sub>x</sub>, diesel particulate filter and biofuels technologies. Their products are in commercial use around the world. Platinum Plus and ARIS are registered trademarks of Clean Diesel Technologies, Inc.
