CERTIFICATE OF RECOGNITION

Environmental Sustainability Award

PRESENTED TO:

Clean Diesel Technologies

IN HONOR OF:

Your commitment to reducing vehicle emissions and harmful pollutants by producing control systems that meet increasingly stringent global standards for internal combustion engines. Through your dedication to innovation, CDTI delivers systems that are EPA and CARB verified for engine retrofit programs, enabling major automakers and retrofitters to significantly lower the carbon intensity of their vehicles. Your technological achievements have advanced our capability to safeguard the environment while helping to build a clean energy economy. The State of California commends you for being an inspiration to the people of the 23rd State Senate District.
